

WHAT YOU MIGHT SEE

- Blue whales — the largest animal on the planet, regularly spotted off Sri Lanka's coast
- Sperm whales
- Bryde's whales
- Spinner dolphins and common dolphins — often in pods of hundreds
- Occasional sightings of orcas and other rare species

BEST LOCATIONS & SEASONS

- Mirissa (South Coast)
- The most popular launch point for whale watching, with high sighting rates for blue and sperm whales. Best season: November – April
- Trincomalee (East Coast)
- A quieter alternative with excellent blue whale sightings and calmer waters. Best season: May – September
- Kalpitiya (West Coast)
- Known especially for large pods of spinner dolphins, alongside seasonal whale sightings. Best season: November – March

Sri Lanka WHALE WATCHING

Sri Lanka is one of the best places on Earth to see the largest animal that has ever lived — the blue whale.
